❖ A Fresh Take on Catering ❖

Steeped in over 170 Years of Culinary Tradition

In 1849, the Boudin family struck culinary gold. Wild yeasts in the San Francisco air provided their traditional French bread with a unique tang, giving rise to The Original San Francisco Sourdough™. Today, the Boudin family's recipe lives on in the hands and hearts of our expert bakers, with a portion of the original mother dough still starting each and every sourdough loaf we make.

We make it our mission to offer you fresh, simple and hearty food so you can enjoy goodness in every bite.

Our fresh baked sourdough bread is made with four simple ingredients: locally milled flour, water, salt and mother dough. Get protein power with our all-natural and hormone free chicken and turkey, local California grown beef and enjoy fresh produce that is locally sourced whenever possible. As you might be able to tell, what goes in your meal matters to us, which is why we're committed to the belief that the secret to great taste is keeping it simple.

OUR STORY

An Original San Francisco Company

From a tiny, old-world bake shop located on San Francisco's Dupont Street to our Flagship property at Fisherman's Wharf, Boudin has evolved to the state-of-the-art facilities and services we operate today - and emerged as San Francisco's oldest continuously operating business since 1849. Though much has changed since our boomtown beginnings our bread recipe has not.

Our founder, Isidore Boudin, knew that the secret to great taste is keeping it simple. That's why our bread is still made with only four ingredients: locally milled flour, water, salt and mother dough. But this approach doesn't stop at bread. Our commitment to simple, fresh ingredients and world class craftsmanship drives everything that we do.

Our fresh baked sourdough bread is

made with four simple ingredients: locally milled flour, water, salt and mother dough. Get protein power with our all-natural* and hormone free chicken and turkey, local California grown beef and enjoy fresh produce that is locally sourced whenever possible. As you might be able to tell, what goes in your meal matters to us, which is why we're committed to the belief that the secret to great taste is keeping it simple.

It's Our Nature to Nurture

Like many businesses, we have been doing what we can in a more environmentally friendly manner because we think it is the right thing for our planet. Nurturing our famous mother dough has taught us that taking care of yourself and mother earth go hand in hand.
